Professional Summary

MERN Full Stack Developer skilled in building responsive web applications with **MongoDB, Express.js, React.js, and Node.js**. Develops **REST APIs, JWT authentication**, and clean JavaScript and TypeScript code for browser and server layers. Integrates **Google Gemini APIs** and uses Git, GitHub, Postman, and VS Code in Agile development workflows.

Technical Skills

Frontend: HTML5, CSS3, Tailwind CSS, Bootstrap (Framework), JavaScript, React.JS, React Hooks, TypeScript

Backend: REST API, Node.js, Express.js

Database: MongoDB, Mongoose

Authentication: JWT, AWS

APIs: REST APIs, Google API

Application Delivery Practices: REST API integration, Authentication & authorization, Database schema design

Technical Skills: Python (Basic), C, DSA

Professional Experience

MERN FULL-STACK WITH AI

TRAINEE, Ducat School of AI, Noida

07/2025 to 04/2026

- Developed responsive web pages using HTML, CSS, and JavaScript to enhance user experience.
- Collaborated with team members to gather requirements and implement design specifications.
- Participated in code reviews to improve quality and maintain coding standards across projects.

Education

Bachelor of Engineering Computer Science,

2022-2025

Indraprastha Institute of Management And Technology - Saharanpur, India

- Completed Class 12 from UP Board in 2022
- Completed Class 10 from UP Board in 2020
- [7.14] GPA/CGPA
- Division – First

Projects

1. Amazon Shopping Web – github.com/ayushkumar0999

[15 SEP - 28 SEP]

Technologies Used: HTML-5, Bootstrap (Framework), JavaScript, jQuery.

Generated, maintained, and optimized product listings on Amazon Seller Central to ensure accuracy, consistency, and brand coherence.

2. Travel Everywhere – Full Stack Web Application with MERN - github.com/ayushkumar0999

[PRESENT]

Technology Used: JavaScript, React.js, TypeScript, Node.js, Express.js, MongoDB.

Built a travel web app using React.js, Node.js, Express.js and MongoDB., Developed REST APIs, MongoDB database integration, and implemented JWT-based authentication.

3.Video Library – Full Stack Web Application with MERN - github.com/ayushkumar0999

[11 SEP-11OCT]

Technology Used: JavaScript, React.js, TypeScript, Node.js, Express.js, MongoDB.

Constructed a MERN stack video library application having capabilities such as user login, uploading video, and performing CRUD operations.

Certifications

- Ducat School of AI, Noida **2025-2026**
- National Workshop on IoT & Cyber Security: Trends, Challenges and Solutions
Shri Ram Group of Colleges, Muzaffarnagar **May 2023**
- Successfully participated in a One-Week National Workshop on IoT & Cyber Security: Trends, Challenges and Solutions.
- Successfully completed English speaking course from American Institute of English Language Pvt Ltd, Muzaffarnagar
- Got 2nd prize at Zonal level in Technical Quiz Competition.
- Participation in multiple technical college project and multiple academic and non-academic activities.

Strength

- Can adapt to new environment.
- Quick learner
